**DETAILED ACTION**

***Amendment***

1. Acknowledgement is made of Amendment filed on 05/27/2009, in which claims 24,37, and 39 are currently amended. Claims 24-49 are still pending in the application.

***Information Disclosure Statement***

1. The supplemental information disclosure statement (IDS) filed on 11/02/2009 has been partly considered and placed of record. An initialed copy is attached herewith.
2. because the office action indicated therein fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered.

***Allowable Subject Matter***

3. The following is an examiner's statement of reasons for allowance:
4. Claims 24-49 are allowed.
5. Regarding claim 24, the prior art of record in combination of other limitations of the claim, fail to teach or reasonably suggest, *inter alia*, an electric equipment comprising: power source connected to the body via a predetermined bus, including a secondary battery, secondary battery control means for controlling the secondary battery, a fuel cell which causes a predetermined fuel and air to electrochemically react with each other so as to cause a power generating unit to generate power, and fuel cell

control means for controlling the fuel cell, wherein the secondary battery control means and the fuel cell control means mutually transfer at least remaining secondary battery power information indicative of an amount of power remaining in the secondary battery and a fuel cell status information indicative of a status of the fuel cell, to each other via the bus.

1. Claims 25-36, 47 are also allowable in virtue of their direct or indirect dependencies from claim 24.
2. Regarding claim 37, the prior art of record in combination of other limitations of the claim, fail to teach or reasonably suggest, inter alia, a power management method for electric equipment comprising: mutually transferring at least remaining secondary battery power information indicative of an amount of power remaining in the secondary battery and fuel cell status information indicative of a status of the fuel cell between the secondary battery control means and the fuel cell control means via the bus; and controlling the fuel cell based on the remaining secondary battery power information and the fuel cell status information.
3. Claims 38 and 48 are also allowable in virtue of their dependencies from claim 37.
4. Regarding claim 39, the prior art of record in combination of other limitations of the claim, fail to teach or reasonably suggest, inter alia, an electric equipment comprising: power source connected to the body via a predetermined bus to a predetermined electronic equipment at least having processing means for executing various processes, the electronic equipment comprising: a secondary battery, a

secondary battery control means, a fuel cell control means for controlling the fuel cell, wherein the secondary battery control means and the fuel cell control means mutually transfer at least remaining secondary battery power information indicative of an amount of power remaining in the secondary battery and fuel cell status information indicative of the status of the fuel cell, to each other via the bus.

5. Claims 40-46, and 49 are also allowable in virtue of their direct or indirect dependencies from claim 39.

***Conclusion***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
